PEACE CONFERENCE MAY BE HELD BY MEXICAN CHIEFS

Stated That Leaders of Two
Larger Warring Factions
Have Agreed to Discuss
Terms in Two Weeks.

VILLA AND OBREGON WILL MEET ON BORDER

Leaders Fear That Unless
They Agree the Movement
by Huerta's Friends Will
Cause United States to
Intervene.

EL PASO, TEXAS, June 23.—Jose Isabel Robles, minister of war in the cabinet of Eulalio Gutierrez, announced here tonight that the leaders of the two larger warring factions have agreed to discuss peace terms, perhaps within two weeks.

Since the overthrow of Gutierrez's government Robles has been identified with either Villa or Carranza. According to his story he was chosen by influential Mexicans anxious to end the fighting.

Robles did not reveal any terms of the agreement he claimed to have brought about, but said that by the middle of July Villa will be on the border to meet Obregon, the two sanctioning the conference.

Robles intimated that the success of his work had been hastened by fear evoked at headquarters of both Villa and Carranza that the revolution popularly believed about to be begun by Obregon would complicate the situation in Mexico that the United States might intervene.

GENERAL ANGELES VISITS WASHINGTON

Washington, June 29.—General Felipe Angeles, right-hand man of General Francisco Villa, came to Washington today to deny intimations that he was involved in the activities of the revolution and his associates and at the same time to express the sentiment of opposition toward the Mexican problem.

The general issued a statement saying he was opposed to Huerta and all that he represented in Mexican politics and that after a brief stay here he would go to Sonora on a private mission for General Villa, returning afterwards to the battle front to remain with his chief.

Department of justice officials had no additional details today concerning charges and evidence against General Huerta and Orozco were arrested at El Paso. They expressed the opinion, however, that whatever might be the outcome of the prosecution, the arrests already had had a wholesome effect in preventing the launching of a new Mexican revolutionary movement.

General Angeles was not directed by Villa to do so, he said, but is anxious to learn just what Mexican policy the United States intends to pursue. Continuous fighting by the factions now in the field with no hope of recognition is futile, General Angeles declared, and he agreed with President Wilson's recent statement that the various elements must come to an understanding. He said he was sure that he and General Villa would support the provisional presidency any capable man who represents the principles and ideals for which the revolution has been fought.

Angels Called on General Scott. Major General Hugh Scott, chief of staff of the United States army, was the only official whom General Angeles called today. Enrique C. Llaneza, Villa's Washington representative acted as interpreter. Angeles brought a letter of introduction from General Villa to General Scott. The contents of the letter were not disclosed.

AROUSSED TO ACTION, TRUSTEES WILL MOVE FOR IMMEDIATE AID

Pending Further Consideration,
Superintendent Summerrall's
Resignation Is Tabled by Board—Letter of
Dr. Summerrall.

Declaring that conditions at the Grady hospital are hopeless unless the people of Atlanta are aroused and save the institution by bonds or otherwise, Superintendent W. B. Summerrall, Tuesday afternoon tendered his resignation to the board of trustees of the institution. The trustees, taken by surprise, took no action on Dr. Summerrall's resignation, tabling it for future consideration.

In an interview with a Constitution reporter, Dr. Summerrall said that he has no hope for the future of the institution, and that he does not wish to remain superintendent under these circumstances for fear that, knowing the conditions at the Grady, might become indifferent to his work. I am heartsick and disgusted with the situation.

"I have looked to every side for relief," said Dr. Summerrall, "and there is none. The people are indifferent, and I do not wish to remain superintendent under these circumstances for fear that, knowing the conditions at the Grady, might become indifferent to his work. I am heartsick and disgusted with the situation."

The typhoid fever epidemic found to be even worse than had been reported, but it is now under control and an almost complete cure has been effected. The investigation brought out the fact that there had been thirty-four cases of the fever at the prison, of which eight of the patients have died.

As a result of the investigation the committee will recommend to the legislature this morning for a series of reforms at the state prison farms and at the Grady hospital.

In compliance with a resolution by Representative Ennis, of Baldwin, adopted Saturday, a joint committee of five from the house and three from the senate were instructed to investigate the general conditions at the state institution, and especially the epidemic of typhoid fever.

The committee is composed of Representatives Ennis, of Baldwin; Conner, of Spalding; Speer, of Mitchell; King, of Greene, and Allen, of Jackson, and Senators Walker, of the twenty-fifth, Paulk, of the twenty-sixth, and Bonner, of the thirty-first.

Members of the joint committee, accompanied by Chairman Davidson, of the prison commission, spent all of Monday making an inspection of the state farm, the committeemen returning to Atlanta yesterday.

Sanitary conditions, members of the committee say, were found to be very bad; so much so, in fact, that it is immediately necessary that the legislature make provision for changes.

ARMORED TRAIN LOOKS PART OF LANDSCAPE

DISGUISED AUSTRIAN ARMORED TRAIN.

In the accompanying illustration is shown an armored train of the Austrians decked with shrubs and foliage so as to resemble a part of the country through which the train passes. This method of disguise is particularly valuable in protecting the train from aerial attacks. The pilot of a hostile air craft invariably completely fooled by this ruse.

The new executive building of the Atlanta Federal Prison is already completed and the construction work at hand. When the present buildings are completed it will be impossible to use all the men upon the construction of the other cell house, and when that is completed also there will be practically no employment for the prisoners.

Therefore one of the big problems considered by Warden Zerbst and the attorney general was that of furnishing employment to men. "Experience has shown," said Warden Zerbst Tuesday afternoon, "that it is never wise to keep a man in a cell and leave him there."

As a result of the suggestion by Attorney General Gregory he will recommend that proper industries be established for the prisoners. Another possibility is the idea of the attorney general that the prisoners be put to work on a large scale, but this would be a means of keeping the men busy, but should be profitable both to the government and to the men, and at the same time teach the men a business course, and if necessary, if necessary, upon leaving prison.

Of course, the employment which the prisoners are to have is not to be the manufacture of some article of value, but it is to be a means of keeping the men busy, but should be profitable both to the government and to the men, and at the same time teach the men a business course, and if necessary, if necessary, upon leaving prison.

It might be possible to pay them only 10 cents per day," said Mr. Zerbst, "but that is a great deal better than nothing, and it would help in a material way to relieve the suffering of the families of some of the men here. It is to be often the case that the families of the prisoners are in need of money more than the prisoners themselves."

RUSSIANS FURLED THEIR FRONTIER FOR THE FIRST TIME

Forces of the Czar Continue

RUSSIANS WILL STAND ALONG THE RIVER BUG

This Great Stream Offers
Many Advantages for
Strong Defense—If Russians
Lose on the Bug, It
May Mean Fall of Warsaw

London, June 29.—Dugan back over their own frontier north of Lemberg and forced to cross the River Galia, in southern Galicia, the Russian army to retreat before the Austro-Germans along a front of approximately 250 miles.

Berlin records progress in virtually the entire southeastern theater, although violent fighting still is in progress beyond the Galia Lipa, which joins the Danube at Halls. The Germans have taken a passage of this stream, General von Linington's army is presumably astride the railway running from Halls to Lemberg and Stanislaw, and now doubtless is aiming at the line which runs from Lemberg to Odessa through Tarnopol.

It is generally believed that the army bent on further punishment for the Russians before relaxing the intensity of her Galician campaign, but with the Russian across the frontier, the Germans will have to rely almost solely on road transport and their advances will be slow and costly.

RUSSIANS STAND ON RIVER BUG. The Russians are making their stand on the Bug river. This great stream, which offers many advantages for a strong defense, runs almost north, forms a part of the eastern frontier of Russian Poland, and joins the Vistula 15 miles northwest of Warsaw. It is along the Galician coast that the army of Grand Duke Nicholas is bottled up. Having forced a passage of this stream, General von Linington's army is presumably astride the railway running from Halls to Lemberg and Stanislaw, and now doubtless is aiming at the line which runs from Lemberg to Odessa through Tarnopol.

THAW NEVER INSANE,
SAYS DR. BANCROFTExpert Alienist Declares That
White's Slayer Is Not a
Paranoiac.

New York, June 29.—Dr. Charles P. Bancroft, head of the New Hampshire State Hospital for the Insane and a member of the federal commission which examined Harry K. Thaw during his sojourn in New Hampshire, swore on the witness stand today that in his opinion Thaw was not insane, but always had been sane. Dr. Bancroft testified as an expert alienist in the jury proceedings to determine Thaw's mental condition.

Thaw's act in killing Stanford White, Dr. Bancroft said, was not the product of a systematized delusion such as characterizes the true paranoiac. "The killing of Stanford White," he said, "appeared to us a paranoiac impulse act, growing out of a condition of mind due to a paranoiac impulse, which was the final culmination of a series of circumstances that had been bearing down on him a long time. It did not seem a type of mania, but was due to jealousy of Mr. White, not to a diseased condition of mind."

When you believe Thaw never was insane? "I do. Another reason for my be-

lieve is that Thaw expressed regret for his deed. A paranoiac never expresses regret. He continually tries to justify the deed and no amount of persuasion can convince him he has done wrong."

Dr. Bancroft said he had given Thaw a final three-hour examination last Sunday.

There is not a doubt or suspicion in my mind as to this man's sanity," he testified.

Dr. J. Perry Hickling, of Washington, D. C., president of the American Society of Medical Jurisprudence, testified that he, too, had found Thaw sane and rational. He had examined Thaw at the Manhattan asylum some months prior to Thaw's escape, as well as in New Hampshire.

Dr. Charles K. Mills, of Philadelphia, another alienist, who said he had examined Thaw at various times in connection with previous proceedings and recently in New York, testified that he was still on the stand when adjournment was called. He said he expected that at the conclusion of his cross-examination Thaw's attorneys will rest their case.

"Underworld" Exists
Throughout Society;
Mothers Are Blamed

Chicago, June 29.—Wrong ideas instilled by mothers are more potent factors in promoting immorality than is commercialized vice, according to Dr. Albert C. Galt, of Indianapolis, who spoke today before the bureau of sanitary science of the American institute of hygiene.

"The time is opportune for a re-statement of our ideas regarding causes of immorality," said Dr. Galt. "The popular theory that low wages to women cause immorality is vanishing into thin air."

The underworld is largely misunderstood. We are pleased to find that immorality exists only in segregated districts. Outside of these districts, in reality the underworld exists throughout society. At the very best, the universal franchise, which refuses to assume their responsibilities, is the universal franchise, which is soon to be theirs, women must realize that there is a deeper, truer patriotism than waving a bit of white during the playing of the national anthem. That patriotism must be expressed in the intelligence and integrity of their children."

Dr. A. C. Pearson, of Philadelphia, said federal state and city health officials had worked a marked improvement in the quality of the country's manufactured food products.

Dr. N. Woodbridge, of Tampa, Fla., said grand chancellor of the Supreme representative of the Knights of Pythias of Florida, the first of the state to arrive, coming in Tuesday afternoon.

The altar was of white silk, and the typical bridal altar cover was used with amalia, palms and fern in completing the elaborate floral setting for the ceremony.

MATCH PLAY STARTS IN CITY TOURNEY

Good Matches Played—No
Matches Will Be Played
Today, Courts Wet.

Match play in the first round of the city tennis tourney was started Tuesday afternoon on the courts at Piedmont park, the entire first round, with the exception of one match being completed.

Every match was a hard fought affair, and some spectacular tennis was witnessed during the afternoon.

The McMillan-Wickie match, was probably the prettiest of the afternoon. Although McMillan won in straight sets, 6-4, 6-1, Wickie put up a good game.

The Rhet-Martin match was also a pretty affair. Rhet, after losing the first set, 6-2, came to life and won the next two, taking the match in three sets, 6-2, 6-0, 6-0.

Owing to the severe rain last night, no matches will be played today, as the courts will be in shape. Matches will be continued Thursday, provided no more rain interferes.

The results of all matches played so far, are:

First Round.
W. F. Wilson defeated Brooks Melli by default.

Vernon McMillan defeated C. L. Wickie in sets, 6-4, 6-1, 6-0.

A. S. Harris defeated P. H. Cox by default.

Harry Ashe defeated Dr. W. A. Belmont in sets, 6-2, 6-0, 6-0.

Frank Owens defeated R. R. Stewart in sets, 6-2, 6-0, 6-0.

John Jennings defeated J. D. Martin in sets, 6-2, 6-0, 6-0.

SEVERAL LOCKER CLUBS WEEK SEEK MEMBERS

Some Denied Licenses by Council, Will Close Lockers Tonight and Await Action.

That the nine clubs of the Monday were denied by general council renewal of their licenses to operate locker club features will not submit to the action of the council without a fight was indicated Tuesday, when several of the clubs employed counsel and held meetings to determine what steps to take.

The attitude of some of the clubs was to take no step until general council next Monday passes on the six applications that have been held up pending further investigation by the police committee. They are the Atlanta Athletic Club, Druid Hills club, Piedmont Driving Club, the Moore, the Elks and the Eagles clubs.

The nine clubs denied locker club privileges were: The Atlanta Athletic Club, M. & M. club, Theatrical club, Greek society, Metropolitan club, the Owls, the Beavers and the Terrace club.

At a conference last night of officers of the Atlanta club it was decided to take no steps until council acts Monday on the remaining six clubs. It was stated by the attorney for the club that they would act in conjunction with the M. & M. club and would not take the initiative until further developments.

Several of the clubs will have representatives at a caucus to be held this morning to determine whether or not to attempt to operate by injunction proceedings. This method was followed by a local club several years ago.

The Atlanta club and M. & M. club will close their locker club features tonight in accordance with the action of council and it is understood that the other clubs will follow suit if it is agreed on at the caucus.

Mayor Woodward was non-committal in his opinion of the matter. He would not say whether he would support the action of council or not.

He said that he did not believe it fair to discriminate, but did not say he would veto the applications already granted. He has until Friday night to approve or disapprove the licenses.

He also has 12 near beer licenses to pass on by that date.
